

DP125i/DM125i

Franking Machine

Designed with flexibility in mind, the DP125i/DM125i, powered by IntelliLink™ technology represents the ultimate answer to the mailing needs of busy businesses

The DP125i/DM125i is the perfect franking machine for any busy business office

Future Proof Mailing

IntelliLink™ connects DP125i/DM125i to a secure server, via the internet, enabling services such as postal tariff changes, software updates and advertising slogans to be downloaded quickly and effortlessly.

Correct Value Postage

Every letter every time – the DP125i/DM125i incorporates a 2.5kg integral weighing platform, freeing up desk space and guaranteeing that each letter or package bears the correct postage value.

Fast, Accurate Postage Re-crediting

Replenish your meter 24-hours a day with simple one-touch refills via **POSTAGE BY PHONE** – quick, secure and hassle-free.

Easy to Use

All controls are fully integrated on one clear control panel with user-friendly instructions to guide the operator through each stage of processing mail.

Streamlined Processing

Efficiently frank and seal mail pieces up to 9.5mm thick, whilst larger mail is quickly processed with self-adhesive tape strips. Mailing couldn't be easier with up to 5 presets for your most commonly used jobs.

Monitor Postal Spend

Control postage costs with tracking and reporting for up to 25 named departmental or client accounts.

Strengthen Your Brand

Enhance standard envelopes into eye-catching branded mail pieces with tailor made customized logos.

Track Incoming Mail

Date and time stamping incoming post ensures mail is handled efficiently.

This flexible machine is ideal for businesses with varied letter and parcel post. With the DP125i/DM125i, you'll always have the postage you need.

The Benefits of Franking

What are the benefits of Franking?

- Cost Saving – franked mail gives a discount over stamps of between 12% and 21% depending on weight.
- Time Saving – far quicker to frank than to maintain a stamp book and visit the Post Office to top it up.
- Image – a franked letter with your own return address and slogan gives a professional touch to your mail and enables the return of “gone aways” to keep your database up to date.
- Correct Value – by setting the correct value each time it avoids using incorrect stamp values if they are not easily available, so more cost savings.
- Credit Always Available – using the telephone re-credit system, when the franker runs out a telephone call at any time 24/7 “tops up” the credit value to let you carry on posting – no running out of stamps.
- “Pricing in Proportion” – all products are fully compatible with PIP services and rates.
- Printing Method – via compact replaceable ink cartridge.

Why purchase your franking machine from Totalpost?

We are one of the few independent Royal Mail approved suppliers and maintainers of franking machines to give full U.K. coverage (apart from some manufacturers). We can give excellent personal service at keen prices by supplying equipment from two of the largest manufacturers; but sold, serviced and “looked after” by our own proven team.

“Large enough to be national – small enough to care” is a maxim we believe in, so if you are a stamp user wanting equipment for the first time, or a multinational wanting to upgrade dozens of older models, we can help.
