

MSL 350

LOW/MEDIUM VOLUME FRANKING MACHINE

Features

- **Value for Money.** With state of the art digital technology, high quality printing for clear, crisp impressions.
- **Remote Recrediting.** Telephone recrediting 24/7 with quick and easy system of top-ups via a simple phone call.
- **Cost Centre Accounting.** Allocate and store postal usage within your company for up to 35 different cost centres, or different customers.
- **Weighing Scale.** The system comes with a simple 2kg scale that sets the franker to the correct postage. For more complex rates including "add on" values like overseas "International Signed For" (and others) we can interface a more complex scale (see scales section) which can calculate these complex rates to set on the franker keyboard.
- **Differential Weighing.** Stack many items on the scale to its maximum capacity, then by removing one item at a time the system sets the value of each item automatically - saving loads of time by simple handling.
- **Label Dispenser.** Up to 50 labels stored in a simple dispensing hopper, automatically feed when selected for application to packets and parcels.
- **Autofeed.** Add automatic feed to speed your mailings and increase output.

Specifications

Machine size	385x250x360mm
Size with optional autofeed	590x250x360mm
Automatic label dispenser	Up to 50 labels at a time
Weight (with autofeed)	8.8kg (12.2kg)
Maximum speed	Approx 3600/hr
Cost centre accounting	35 departments
Slogans text	Up to 10 easily changed + 5
Envelope sizes	Length 125 - 381mm Width 76 - 381mm
Thickness	Up to 10mm (6m autofeed)
OPTIONAL EXTRAS	Autofeed 3, 6, 12, or 30kg scale

Why purchase your franking machine from Total Postweigh?

We are one of the few independent Royal Mail approved suppliers and maintainers of franking machines to give full U.K. coverage (apart from the 4 manufacturers). We can give excellent personal service at keen prices by supplying equipment from two of the largest manufacturers; but sold, serviced and "looked after" by our own proven team.

"Large enough to be national - small enough to care" is a maxim we believe in, so if you are a stamp user wanting equipment for the first time, or a multinational wanting to upgrade dozens of older models, we can help.

What are the benefits of Franking?

- Cost Saving - franked mail gives a discount over stamps of between 6% and 7% depending on weight.
- Time Savings - far quicker to frank than to maintain a stamp book and visit the Post Office to top it up.
- Image - a franked letter with your own return address and slogan gives a professional touch to your mail and enables the return of "gone aways" to keep your database up to date.
- Correct Value - by setting the correct value each time it avoids using incorrect stamp values if they are not easily available, so more cost savings.
- Credit Always Available - using the telephone re-credit system, when the franker runs out a telephone call at any time 24/7 "tops up" the credit value to let you carry on posting - no running out of stamps.
- "Pricing in Proportion" - all products are fully compatible with PIP services and rates.
- Printing Method - via compact replaceable ink cartridge.
