

FOLDING INSERTING SOLUTIONS

▲ D1200

Easy to use; fits anywhere. Out of the box and ready to use - plug it in and the display panel guides you through the set up ready to process your mail within minutes.

Automate your mail. Saves time - processes up to 15 pieces a minute - everyone can process their everyday mail.

Pays for itself. Improves productivity by eliminating manual labour. Allows you to keep in touch with your customers more often with promotions and offers.

Manage cash flow. Speeding up the processing of invoices, estimates and statements can have a dramatic effect on the cashflow and overall success of your business.

Enhance your image. Your mail will always be properly folded and sealed giving you a more professional image.

▲ SI3300

Ease of Use. Simple to operate: quick set-up with visual prompts, jobs can be pre-programmed and recalled as required. Automatic adjustments for fold settings, sheet feeder and envelope separation to ensure easy, trouble free operation. Easy access to paper path to clear material in case of stoppages.

Automation and Productivity. Up to 25 times faster than manual processing. Load-on-the-fly allows continuous operation, no need to stop to reload. Linked feeders allow high volume jobs to be processed quickly allowing you to hit postal deadlines.

Flexibility. Feeders designed to accommodate a wide variety of materials for all applications e.g. invoices, statements, reminders and direct mail.

Security and Integrity. Trial piece to confirm accuracy of the job to be run. Accurate document detection to ensure that "doubles" are not mailed.

Optical Mark Recognition. OMR (Optical Mark Recognition) allows you to automate the processing of mailings where the number of pages varies for each recipient, or with Advanced OMR allows you to add additional items for certain recipients, such as special offer flyers.

TECHNICAL DATA

DI200

Machine Size	440x530x400mm
Envelope Size	DL 70-100g/m ²
Machine Weight	17kg
Max Speed	up to 900/hour
Material Weights	70-200g/m ² max folded 90g/m ²
Capacities	Envelope feeder 60 Insert feeder 60 Sheet feeder 80 Stacker 60
Electrical	220-240Vac, 50Hz, 1A

Options Second sheet feeder

SI3300

Machine Size	773x568x525mm
Envelope Size	DL-C5 65-100g/m ²
Machine Weight	55kg
Material Weights	Sheet feeder 60-120g/m ² Insert feeder 60-180g/m ²
Electrical	230Vac, 50Hz, 3A

Options Basic OMR
Advanced OMR

Configurations 1 sheet feeder
1 sheet feeder, 1 insert feeder
2 sheet feeders, 1 insert feeder

SI3500

Machine Size	1043x568x525mm
Envelope Size	DL-C5 65-100g/m ²
Machine Weight	65kg
Material Weights	Sheet feeder 60-120g/m ² Insert feeder 60-180g/m ²
Electrical	230Vac, 50Hz, 3A

Options Basic OMR
Advanced OMR

Configurations 1 sheet feeder
1 sheet feeder, 1 insert feeder
2 sheet feeders, 1 insert feeder

We are pleased to offer a range of equipment sold either directly, or via appointed dealers and is serviced nationally or internationally.

The products are either manufactured by us, or are produced in partnership with a selected supplier to give you a comprehensive range that we believe is top quality and good value for money.
