

# MSL650

## High Volume Franking Machine

*Sophisticated features in a compact package*

The MSL650 is the perfect franking machine for any up and coming business

### **Value for Money**

With state of the art digital technology, high quality printing for clear, crisp impressions.

### **Enhanced Digital Printing**

All the qualities of the smaller models in the range, but enhanced to allow the inclusion of photographs in your custom slogans, greetings and logos.

### **Built in Sealing**

When automatically feeding gummed envelopes, they can be sealed in the process saving even more time.

### **Weighing Scale**

The system comes with a simple 2kg scale that sets the franker to the correct postage. For more complex rates including "add on" values like overseas "International Signed For" (and others) we can interface a more complex scale (details available on our website) which can calculate these complex rates to set on the franker keyboard.

### **Extra Cost Centre Account Codes**

Now available with a choice of 50 or 200 cost centres to allocate departmental or customer costs for postage.

### **Remote Re-crediting**

Telephone re-crediting 24/7 with a quick and easy system of top-ups via a simple phone call.

### **Label Dispenser**

Up to 70 labels stored in a simple dispensing hopper, automatically feed when selected for application to packets and parcels.

### **Differential Weighing**

Stack many items on the scale to its maximum capacity, then by removing one item at a time the system sets the value of each item automatically – saving loads of time by simple handling.

### **Easy to Operate**

Simple, one touch controls allow easy change from simple, short runs, to long complex mailings.

*This flexible machine is ideal for businesses with varied letter and parcel post. With the MSL650, you'll always have the postage you need.*

Thickness	Up to 16mm
OPTIONAL EXTRAS	Autofeed 3, 6, 12 or 30kg scale Mail Accounting Software

RoHS Compliant

## The Benefits of Franking

### What are the benefits of Franking?

- Cost Saving – franked mail gives a discount over stamps of between 12% and 21% depending on weight.
- Time Saving – far quicker to frank than to maintain a stamp book and visit the Post Office to top it up.
- Image – a franked letter with your own return address and slogan gives a professional touch to your mail and enables the return of “gone aways” to keep your database up to date.
- Correct Value – by setting the correct value each time it avoids using incorrect stamp values if they are not easily available, so more cost savings.
- Credit Always Available – using the telephone re-credit system, when the franker runs out a telephone call at any time 24/7 “tops up” the credit value to let you carry on posting – no running out of stamps.
- “Pricing in Proportion” – all products are fully compatible with PIP services and rates.
- Printing Method – via compact replaceable ink cartridge.

### Why purchase your franking machine from Total post?

We are one of the few independent Royal Mail approved suppliers and maintainers of franking machines to give full U.K. coverage (apart from some manufacturers). We can give excellent personal service at keen prices by supplying equipment from two of the largest manufacturers; but sold, serviced and “looked after” by our own proven team.

“Large enough to be national – small enough to care” is a maxim we believe in, so if you are a stamp user wanting equipment for the first time, or a multinational wanting to upgrade dozens of older models, we can help.
