

T400 ENVELOPE OPENER

Features

The latest addition to the 'Total' range of mailing machines is the T400 Desk Top Automatic Letter Opener, which operates at 24,000 envelopes per hour. The opening method is by slicing one edge of the envelope which creates no waste, which is often the cause of jamming on other machines.

With the large feed table, larger envelopes are easily handled, and a front feed guide helps to ensure the accuracy of cut by keeping envelopes running correctly.

Since the equipment is designed and built around a rugged internal steel chassis, but with moulded covers and safety covers, the noise level is one of the quietest on the market, allowing the system to be used in a tiny mailroom or an open plan office with minimum disturbance.

Specifications

Machine Size	210 x 845 x 310mm (inc catching tray)
Weight	9kg
Speed	24000/hour on DL size
Material Size	Mixed mail up to C4 size (300 x 240mm)
Thickness	Up to 10mm
General	Safety covers fitted
Power	220/240v or 120v 50/60hz
